Challenge

iPlace is a project by Soundwill Group which targeting young and energetic generations. There is a great challenge to source suitable door lock products to match their modern & simplicity interior design. The developer specially requested for digital door lock for all the flats in the building because the young entrepreneur appreciated high-tech devices in their office / home. Therefore, Digital Door Lock would help to increase the attractiveness of the building.

Solution

The client is looking for company that can provide all door hardware as well as digital door lock. Digital door lock is getting popular and thus the client would like to install digital door lock for this modern residential building which target young generation. YDM3109 is proposed and this model offers 3 opening solutions which are PIN code, key card and mechanical key. The user is able to choose the unlock method they like as per the user manual. Apart from the digital lock on entrance door, we also supplied Yale door closer, hinge and other accessories for this project.
